Celebrating
Six Decades of Success

Celebrating six decades of success, CCC&TI has a remarkable legacy of transforming lives and shaping our communities.

Our tradition of excellence in education extends beyond our walls to the lasting impact on students, their families, our workforce and the enrichment of our community for generations to come.

Behind every graduate is a story of generosity -- of those who have lifted students up with their hearts or with funding to ensure success. Your support is key to our advancement as we look to the next 60 years and beyond. It is vital that we continue our quality efforts to strengthen our community and change lives - one student at a time.

Consider the power of your contribution from those who have benefitted:

"I am a Physical Therapist Assistant student in my final semester at CCC&TI. I have two children and work part-time with Caldwell County EMS. Childcare assistance allowed my girlfriend and me to work, as well as attend school and have our children in a safe place during the day. Thank you from the bottom of my heart."
Jule Picton

"I had quite a struggle last semester. Emergency assistance made it possible to relieve a bit of stress. Coming back to school after 10+ years has been an adjustment for me and my family. It was an ego boost to have the school behind me in this journey. I look forward to continuing to prove myself and help in any way I can."
Alicia Benotti

"I was considering being a part-time student this year due to financial challenges of being a single mother before I received the scholarship and I could not be more thrilled to have received this blessing. I now can continue as a full-time student and get one step closer to achieving my degree and changing the lives of myself and my sons."
Kelli Pressley

"Funds from the Dream Award covered my core classes at CCC&TI. I later received my Bachelor's and Master's degrees in elementary education from App State. The scholarship helped me not carry a load of student debt after the culmination of these years in college. January 2024 marks 21 years of teaching for me. This all began by being encouraged when I received the Dream Award!"
Susan Neel

"The Foundation has supported our nearly 100 student-athletes in various ways. Funding through the Foundation has helped support athletics and offset the costs associated with travel to championship venues with our nationally ranked teams which offer a once-in-a-lifetime experience that our student-athletes will never forget."
Jeff Link
