Electrical Lineman Institute

Develop the knowledge and skills to: install, operate, maintain and repair indoor/outdoor residential; commercial and industrial electrical systems; and associated power transmission lines. This program combines classroom courses with laboratory hours that offer practical, hands-on training.

If you enjoy traveling, being outdoors and working with electrical equipment, then this training program is for you.

Institute Includes:

• 264 hours of Electrical Lineman Training
• 105 hours of Class A Commercial Driver’s License Training – Truck and Trailer
• 32 hours of Career Pathway for Lineman Training

Stackable Credentials:

• CPR
• Flagger Training
• OSHA 10-hour
• Pole and Bucket Rescue
• CDL (Class A) - Truck and Trailer
• Career Readiness Certificate - Silver Level or Higher

Approximate Cost: $680*
Some fees waived for those who qualify.

*Includes registration fee for three required courses and cost of lineman boots.
